Summary of Legislation

Current law requires a bank to use a certified or licensed appraiser when including property on its financial balance sheet unless the property is initially valued at \$250,000 or less. The bill removes that dollar threshold by changing it to a value consistent with federal requirements and associated rules of the State Banking Board.

State Expenditures

Beginning in FY 2021-22, this bill will minimally increase workload for the Banking Board in the Department of Regulatory Agencies to periodically promulgate rules to align with federal requirements. Any legal services associated with this will be accomplished by the Department of Law. This work can be accomplished within existing resources and no change in appropriations is required.

Effective Date

The bill takes effect 90 days following adjournment of the General Assembly sine die, assuming no referendum petition is filed.
